VISION  
ENTERPRISES

# ABOUT US

Vision Enterprises began with a clear vision: to redefine service excellence in diverse sectors. Leveraging a foundational network of expert collaborators, our founder established a dynamic, one-person operation that has since evolved into a go-to partner for reliable, high-quality solutions.

Today, that foundational principle of quality and connection is the core of our procurement strategy. We act as a seamless extension of your team, meticulously sourcing and managing the supply of superior building technologies. Our expertise lies in navigating the global market to deliver not just products, but integrated solutions that ensure project efficiency, cost-effectiveness, and lasting performance for our clients.

## OUR PROCESS

### Understanding Your Needs

We begin by listening and understanding your unique requirements and goals. Our team works closely with you to ensure we have a clear vision of what you need.

### Tailoring Solutions Accordingly

With a deep understanding of your needs, we craft customized solutions that fit your specific circumstances. Our approach is flexible and adaptive, ensuring that every project is tailored to your requirements.

### Delivering Best Solution

Our commitment to quality and innovation drives us to deliver solutions that exceed expectations. We maintain transparency throughout the process, ensuring you are always informed and involved.

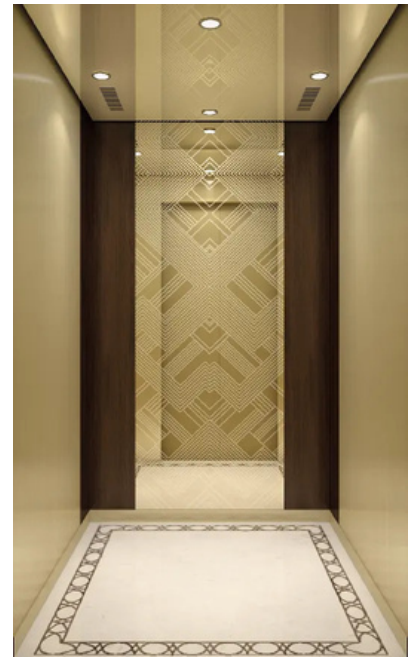

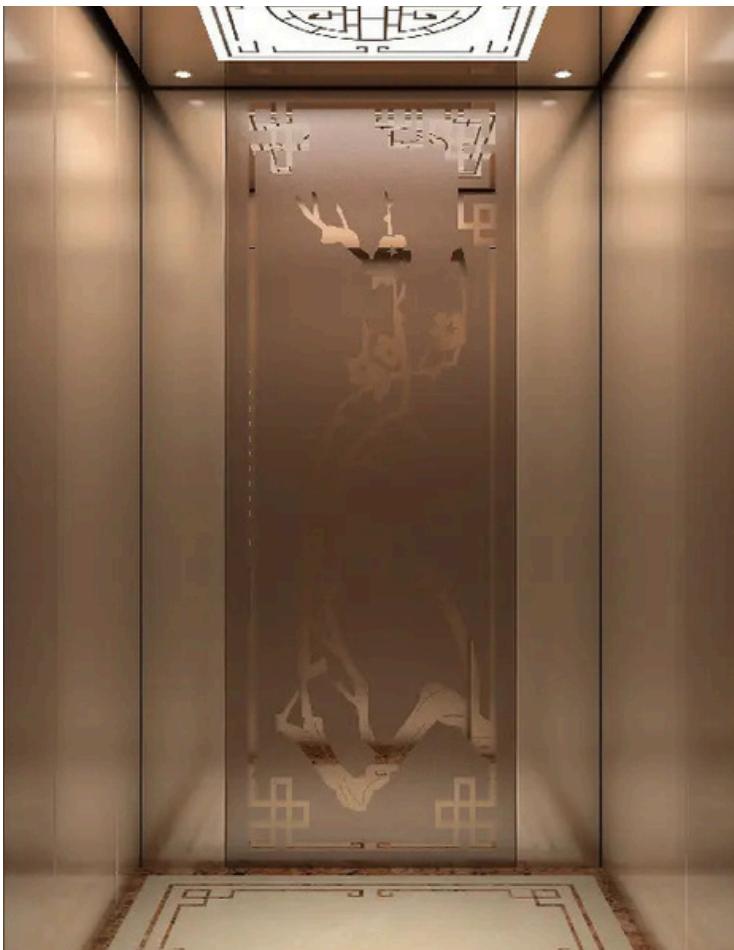

# PREMIUM PASSENGER ELEVATOR: INTELLIGENT, SAFE & EFFICIENT

Key Features & Benefits:

**Enhanced Safety & Protection:** Equipped with comprehensive safety systems, including overload protection, door obstruction sensors, emergency braking, and fire emergency return to ensure passenger safety under all conditions.

**Superior User Experience:** Features like automatic door operation, adjustable door-open time, and car lighting that conserves energy when not in use provide a comfortable, intuitive, and modern ride.

**Intelligent Operation:** Smart functions like automatic call cancellation, express service for high traffic, and a self-diagnostic system that records operational data for optimal performance and predictive maintenance.

**Reliability & Precision:** Engineered for consistent and precise floor leveling, with built-in protection against operational errors, power issues, and mechanical faults to guarantee dependable service.

# A3 SERIES ELEVATOR: THE PINNACLE OF INTELLIGENT MOBILITY

Key Features & Benefits:

**Unmatched Riding Comfort:** Experience whisper-quiet, silky-smooth travel. Our advanced control system and noise-dampening technology ensure a perfectly level and serene journey every time.

**Proactive Safety & Intelligence:** Go beyond standard safety with an intelligent, self-diagnosing system. It continuously monitors its own health, predicts maintenance needs, and features comprehensive protections for door operations, over-speed, and power failure.

**Elegant, Customizable Design:** Transform your space with our range of stylish car designs and finishes. Create a stunning architectural statement that reflects your brand and enhances the building's aesthetic.

**Superior Energy Efficiency:** Engineered for sustainability, the A3 Series features an energy-saving regenerative drive and LED lighting systems, significantly reducing operational costs and environmental impact.

# FREIGHT ELEVATOR: ENGINEERED FOR HEAVY- DUTY RELIABILITY

Key Features & Benefits:

**Powerful & Energy-Efficient Drive:** Utilizes advanced permanent magnet synchronous gearless technology for strong performance with significantly reduced energy consumption and lower operating costs.

**Durable & Customizable Design:**

Choose from a range of heavy-duty interior finishes like painted steel, stainless steel, and crash-resistant plates, along with multiple door options (side, center, or multi-fold opening) to fit any industrial need.

**Enhanced Safety & Stability:**

Engineered with a focus on fundamental safety, ensuring stable and secure transport of heavy or uneven loads to protect both your goods and your facility.

**User-Friendly Operation:** Features a modern, intuitive operator panel designed for convenience and ease of use, streamlining workflow and improving productivity.

# PANORAMIC ELEVATOR: ELEVATE WITH A VIEW

Key Features & Benefits:

**Powerful & Energy-Efficient Drive:** Utilizes advanced permanent magnet synchronous gearless technology for strong performance with significantly reduced energy consumption and lower operating costs.

**Durable & Customizable Design:**

Choose from a range of heavy-duty interior finishes like painted steel, stainless steel, and crash-resistant plates, along with multiple door options (side, center, or multi-fold opening) to fit any industrial need.

**Enhanced Safety & Stability:**

Engineered with a focus on fundamental safety, ensuring stable and secure transport of heavy or uneven loads to protect both your goods and your facility.

**User-Friendly Operation:**

Features a modern, intuitive operator panel designed for convenience and ease of use, streamlining workflow and improving productivity.

# SPACE-SAVING HOTEL ELEVATORS: MAXIMIZE REVENUE, ELEVATE DESIGN

Unlock valuable square footage and architectural freedom with our space-efficient elevator solutions. Designed for modern hotels where every inch impacts the bottom line, our Small Machine Room and Machine Room-Less (MRL) models seamlessly integrate into your building to create more room for guests and amenities.

## Key Features & Benefits:

### **Maximize Revenue-Generating**

**Space:** Convert what would be a large machine room into profitable space for additional guest rooms, suites, or premium amenities.

### **Architectural Freedom & Aesthetic**

**Appeal:** Achieve a clean, unobstructed roofline and flexible design. The compact and MRL solutions allow for seamless integration, preserving your hotel's aesthetic vision.

### **Modern, Efficient Performance:**

Featuring the latest gearless technology, these elevators provide a smooth, quiet, and energy-efficient ride, enhancing the overall guest experience while reducing operational costs.
